

D- Thang

You can harmonize the D scale while using the open D string as a drone string. As always, the harmonized scale is played in this order: M, m, m, M, M, m, dim, M or D, Em, F#m, G, A Bm C#°

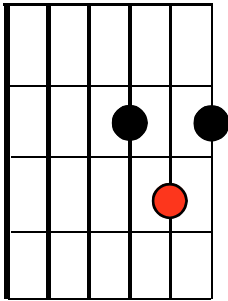

Practice playing each version of the harmonized scale both forward and backward. After you have a handle on it, try some simple melodies mixing up the different versions.
